MEMORANDUM

25X1A

TO : CIA - [REDACTED] Assistant to the Director
FROM : State/INR/DDC - Philip R. Cook, Jr. *PRC*
SUBJECT : Classified Documents Returned from the House
Select Committee on Intelligence
REF : Your Memorandum to Executive Branch Departments
and Agencies of 27 February, 1976

As I promised in our telephone conversation of March 2, 1976, there are attached a Memorandum to the Files and two Lists identifying all the documents I inventoried at the House Office Building on February 14, 17 and 20. With one exception (List A, Item 27) all this material has been boxed and is currently in your custody.

The only significant document we have found to be missing is identified on List A, Item 3. In addition, there are two items (List B, Items 17 and 21) which are not State documents. A possible third such item is identified at List B, Item 5.

Per your suggestion, I am also sending copies of my Memorandum to the Files and attached two Lists to Captain Matheny.

March 2, 1976

MEMORANDUM FOR THE FILES

SUBJECT: Inventory of State Documents Furnished to the
Pike Committee

On February 14, 17 and 20, 1976 I inventoried a number of documents which the Pike Committee had acquired from the State Department during the course of its investigation of U.S. intelligence activities. At the same time, officials representing CIA, DOD, the FBI, NSA, etc., inventoried documents originating in their agencies. When the inventories were completed, the documents were boxed and then transported to CIA for safe-keeping.

Attached are two lists covering the documents I inventoried. List A covers the documents which were recorded in INR/DDC as having been sent to the Committee. They are recorded by Package Number and delivery date. List B covers the documents which INR/DDC did not record as having been sent to the Committee but, nevertheless, were in the Committee's possession. With the exception of Package 3, documents listed as missing on List A are not significant and may result simply from problems of identification or clerical error. Some documents were torn apart making identification difficult. In one instance a "missing document" is completely unclassified and may not have been handled in the same manner as the classified documents.

It should be noted that many of the documents were reproduced in multiple copies after their receipt by the Committee. In several such cases I destroyed the "extra" copies. However, this was not always done and multiple copies of the same documents will be found in the boxed material in several instances. No record was made of the duplicate material.

During the inventory, an effort was made to pass documents belonging to another agency to the representative of that

SECRET

SECRET

-2-

agency. However, included in the State material are a few items which are not of State origin. These are identified on the attached lists. In one case, material was found after the inventory and was returned to INR/DDC rather than being put in the box. That case is also identified on List A.
